Summary

Results-driven Software Engineer with 2+ years of experience in building scalable, user-centric web applications using modern technologies like Next.js, Express, and Docker. Skilled in frontend development, and API optimization.

Technical Skills

FrontEnd: ReactJs, NextJS, ElectronJS, SCSS, Recharts, D3.js , Three.js, Tailwind CSS
Backend: MongoDB, PostgreSQL, ExpressJS, GO, Sequilize, Mongoose
Tools: Figma, Postman, Firebase, Github, GitLab, Docker, Cursor, VS Code
Languages: Javascript, Typescript

Experience

QpiAI   **Bengaluru, India**
Sr. Software Engineer   *Oct 2024 - Present*

- Built modular, scalable **frontend architectures** with Next.js, reducing page load times by 30%.
- Improved an employee management system by automating attendance and leave tracking using **Next.js** and **Express**, reducing manual tracking by 70%.
- Reduced deployment time by 25% by containerizing applications with **Docker**.
- Advocated for design consistency, **modularity**, and **responsiveness** by contributing to design decisions in collaboration with design teams.
- Guided 3 junior developers in front-end and database design best practices, effectively mentoring and sharing knowledge to build team capacity.

Full Stack Developer   *Aug 2023 - Oct 2024*

- Restructured the **UI** using **Next.js**, implementing **code splitting** and **lazy loading** to improve performance by 15%.
- Transitioned six company websites to Next.js, improving load time by 40% and enhancing scalability.
- Built cross-platform desktop application enabling a shift from a legacy codebase enhancing user learning experience.
- Optimized **RESTful APIs** for 2 applications and POCs, ensuring secure and efficient data handling.

Full Stack Intern   *Mar 2023 - Aug 2023*

- Contributed to feature development and bug resolution for React-based platforms, improving mobile responsiveness.
- Conducted **code reviews**, discovering 5 security vulnerabilities and inefficient practices.
- Assisted senior developers in creating responsive UIs, ensuring compatibility across devices, and debugging API interactions using tools like **Postman** and **Chrome DevTools.**

Incentiv   **Bengaluru, India**
Full Stack Developer Intern   *Nov 2022 - Jan 2023*

- Developed the incentiv.finance platform using **Next.js**, **TypeScript**, and **Chakra UI**.
- Implemented unit tests for more than 4 features in backend using **jest** and **supertest** including authentication.
- Integrated **APIs** and established a backend for more than four functionalities.

EventEngage   **Indore, India**
Junior Software Developer Intern   *May 2022 - Aug 2022*

- Upgraded a website using **ReactJS**, improving performance and load time by 30%.
- Innovated the meeting module to book meetings and Event Badge creation functionality.

Education

Shri Vaishnav Institute of Information and Technology   **Indore, India**
B.Tech. in Computer Science (Specialized in Cloud and Mobile Computing) GPA: 8.03   *Aug 2019 - May 2023*
New Digamber Public School   **Indore, India**
Class 12th - 90%   *Mar 2018 - Mar 2019*

Certifications

- IBM Cloud Computing Practitioner
- Enterprise Design Thinking Co-Creator
- AWS Partner: Accreditation (Technical)
